 - they present a ticket which has been visibly manipulated or counterfeited;
 - they use an expired ticket (beyond its period of validity);
 - they use their ticket in a different fare zone than that specified on the ticket;

SANCTIONS

Passengers who travel without a valid ticket will incur the following sanctions (Regional Law 06/12, Article 46):

- Passengers without a valid ticket will get an administrative penalty equal to 100 times the cost of a regular ticket. This fine is reduced to one third (1/3) if payment is made within 60 days of the dispute. The penalty, thus determined, is further reduced by thirty percent if payment is made within five days; in the event of a repeat offense within three years, the penalty is doubled;
- If the passenger is fined for not having a valid ticket, the fine will be canceled if the user can prove, within

5 days of the date of the penalty, that they had a valid travel pass at the time of the penalty, without prejudice to the payment of administrative costs of € 20,00.

The amount of the fine is rounded down and include procedural costs, except in the case of direct payment on the ferry. Those concerned may submit written defenses and/or documents within 30 days (Law 689/81, Article 18) and may request a hearing with the operating company. Sixty days after the transgression, an order will be issued for payment of the full fare.

In case of high penalties imposed on minors, the fine will be notified to those exercising parental authority. If it is not paid within 30 days since the notification of the injunction, the operating company will forward the file to the competent authority or to a debt collection agency for registration. If the act constitutes criminal offense, the administrative penalty shall apply regardless of any criminal penalties, as well as compensation for damages suffered by the Company. The managing body also reserves the right to report any irregularities of a fraudulent nature to the judicial authorities.

VIDEO SURVEILLANCE

For public safety reasons and protection of NLI property, a closed-circuit video surveillance system is installed on motorboats, at boarding piers and outside ticket offices. The captured recordings are processed and stored in accordance with current privacy legislation. Only the police and/or judicial authorities who request it in accordance with the law, are allowed to view the recordings. In cases provided for by specific company regulations, viewing is permitted to authorised personnel.

TICKET REFUND

Notwithstanding EU and national legislations, tickets purchased for line services may be refunded without any financial limit.

Refunds are granted upon request:

- a. 90% of the sale price, for ordinary and daily tickets, weekly and monthly passes, if not validated or before the start of validity;
- b. 90% of the difference between the sale price and the price due for one or more ordinary tickets corresponding to the number of trips already used, for "Multicorsa" tickets;
- c. 100% of the difference between the sale price and the price due for one or more corresponding monthly passes for the period of use, considering fractions of a month as a whole month, for annual passes.

The amount referred to in points a. and b. is increased to 100% if the passenger decides to use the refund to purchase other tickets.

Tickets subject to validation, such as ordinary, daily, and "Multicorsa" tickets, purchased and not yet validated, have no expiry date, except when fare adjustments apply: tickets purchased prior to the adjustment remain valid until sixty days after it comes into effect. Once said period has expired, these tickets can no longer be used, except in case of travel passes with residual validity.

In case of fare adjustment, refund for tickets that can no longer be used is equal to 100% of the fare, or the remaining amount for "Multicorsa" tickets, and is guaranteed for three months since the expiry date of the tickets. Alternatively, the passenger may choose to purchase a different ticket.

COMPENSATIONS FOR PASSENGERS

All compensation claims must be sent in writing to the Operating Offices of Navigazione Lago Iseo S.r.l. at the following address: via Nazionale 16, 24062 Costa Volpino (BG), or to the email address info@navigazione-lagoiseo.it

For a correct reconstruction of the incident, we ask to provide detailed and documented claims which include the date, time, line, and description of NLI's failure to fulfill their obligations. Claims relating to disservice not ascribable to NLI will not be accepted.

Refunds will therefore only be paid in case of delays, ascribable to NLI, that cause serious and proven damage to the customer; in particular, in the event of services not provided, or interrupted, and only if there are no other trips scheduled on the same line or no replacement service within 60 minutes (except for service interruptions due to adverse weather conditions or emergencies). Depending on whether the passenger has purchased an ordinary ticket or a travel pass, the amount of the refund will be equal to the price of the ticket, or half the purchase price of the travel pass divided by the number of days of its duration.

In case of partially or totally unused Multicorsa tickets, a refund will be granted for the value of the single trip in the same way as indicated above.

No refunds will be given to passengers with integrated tickets, or to passengers who were informed of the delay before purchasing their ticket.

In order to submit a complaint, passengers must provide their personal details and contact information and may attach any documentation to facilitate the reconstruction of the facts. All reports will be considered by NLI, which undertakes to provide an adequate response within a maximum of 30 working days. Reports and complaints that are incomplete or contain inappropriate content will not be followed up.
